

# GLASOE ANGUS

*Calving Ease. Docility. Performance.*

SELLING 40+ registered Glasoe Angus replacement dams and bred heifers. Bred and fed for our buyers, these dams showcase lineage developed for mothering ability, productivity, docility and structural longevity.

SELLING 50 head of commercial bred heifers and open heifers stacked with Glasoe Angus pedigrees from return consignors: Ryan and Rachel Ross, Lance and Kelly Skor and Lee and Erin Vassen.

Our Lot 1 dam from last year, stating: Our 2020 featured top-selling replacement dam G A Colossal Anne 624. We will perform ultrasounds in September to determine sale selection and are committed to offering dams of her caliber at our 2021 sale.

G A Regard 633: We bought back this 2016 Glasoe Angus sire from the Erickson Ranch of Powers Lake, ND, last fall. We collected semen and are also featuring him in our natural service breeding lineup. Dams bred with his progeny offer a special opportunity this spring to get in on the first generation of his genetics.

*5th Annual Female Sale*

**1 p.m., Thursday, December 9<sup>th</sup>**  
*at Sitting Bull Livestock Auction, Williston, ND*

Hello,

This summer I have been inspired by the grit and can-do spirit of our cattle producers. I hope this letter finds you and your herd well. As I walk through our dwindling pasture grass each day, I am heartened by our cows and their steadfast maternal performance. We will perform pregnancy ultrasounds in September and will then begin selection for our female sale candidates. We welcome you to stop by and see our herd any time. We hope to see you at our fifth annual female sale December 9th!

All the best, Sydney
